

Dear Families and Students,

I hope you all are doing well. I think of you daily and miss our daily laughter and routine. But, I hope this time has also allowed you to count our blessings in education and our ability to stay connected no matter the distance. I have taken the time to slow down and spend more time with my daughters. I have also enjoyed hearing my daughter read and explore math with her. I hope you have been able to show off your learning with your families too. Below are a few important announcements:

ANNOUNCEMENTS

IN-HOME LEARNING RESOURCES

We wanted to make sure that students are still working hard, having fun and exploring different ways of sharing their thinking. Visit Lakeridge's website page and click the In-Home Learning Tab. It will be updated weekly with a message from me and some engaging activities and challenges to try.

CLASSDOJO

Please continue to share your success, questions and concerns with me. Classdojo has been the most efficient way to contact me, but you are more than welcome to contact me via email too. I appreciate all of your hard work!

SCHOLARS PERSEVERE!

During these times, I am grateful to have a room full of scholars who persevere and work hard no matter their circumstance. You have shown me that you are dedicated to your learning no matter what is going. I just wanted to remind you of your greatness and that you are a scholar. And as always, make good choices and be kind. 😊

With Gratitude,
Mrs. Morris-Paysinger
